Thirdiy—Its Position.

This town has on the Kansas side of the river supporting it, a large district of the very hest lands in the Territory, while on the opposite side of the river there is a large and fertile bottom, teeming with population. This bottom is of itself sufficient to sustain a town of large size. This is the most accessible point from which the Delaware nation of Indians can procure their supplies. Delaware is the nearest and most accessible point which the country on the Kansas river can do their receiving and forwarding business. There are a great number of towns on the Kansas that will find it to their interest to make this place their shipping point, among them we would name Osawger, at this point, emigrants traveling to Kansas Ferritory on the great State road from St. Joseph to St. Louis, will find that this is the proper point at which to enter the territory, as by this neans they avoid a great deal of namecessary icavel.

Hen. th.

This location is high and commanding, having no stagnant water near to generate diseasefrom its streets, there is presented to the eye a
spendid view of the Missouri river for miles
above and below the town, the country in the
vicinity presenting a view at once pleasing and
romantic.

Every inducement will be given to mechanics
to make Delaware the place of their choice.
We ask each person to examine the place. The We ask each person to examine the place. The merchant will find on an examination, that Delaware is obliged to command a trade not second to any town in the Territory; from such persons we ask an examination. In a word, word we ask for Delaware an examination by the public.
